**Governor's Veto Message:**

Governor's veto message: To the Members of the California State Assembly:

I am returning Assembly Bill 1239 without my signature.

This bill requires the state to develop building standards for electric vehicle parking spaces for existing nonresidential buildings and multifamily dwellings.

In 2013, I signed AB 1092 which required the California Building Standards Commission to adopt mandatory standards for the installation of electric vehicle charging stations for parking spaces in new multifamily dwellings and nonresidential buildings. Furthermore, the California Public Utilities Commission is currently working on a comprehensive plan that will determine where investor-owned utilities can install charging stations around the state.

Increasing transportation electrification will require additional coordination and collaboration from the California Energy Commission, the California Public Utilities Commission and the various departments within the Administration. I am directing the Government Operations Agency to work with all the key parties to identify barriers to the construction of charging stations in existing buildings.

Sincerely,

Edmund G. Brown Jr.

Governor's veto message: To the Members of the California State Assembly:

I am returning Assembly Bill 1239 without my signature.

This bill requires the state to develop building standards for electric vehicle parking spaces for existing nonresidential buildings and multifamily dwellings.

In 2013, I signed AB 1092 which required the California Building Standards Commission to adopt mandatory standards for the installation of electric vehicle charging stations for parking spaces in new multifamily dwellings and nonresidential buildings. Furthermore, the California Public Utilities Commission is currently working on a comprehensive plan that will determine where investor-owned utilities can install charging stations around the state.

Increasing transportation electrification will require additional coordination and collaboration from the California Energy Commission, the California Public Utilities Commission and the various departments within the Administration. I am directing the Government Operations Agency to work with all the key parties to identify barriers to the construction of charging stations in existing buildings.

Sincerely,

Edmund G. Brown Jr.

Governor's veto message: To the Members of the California State Assembly:

I am returning Assembly Bill 63 without my signature.

This bill takes existing driver license restrictions placed on minors aged 16 and 17 years and extends it to adults between 18 to 21 years old.

While I understand the author's intent of needing to address factors that contribute to the unnecessary collisions and deaths of young Californians on our highways, the provisions of this bill create a burden on a segment of adult Californians that are no longer seen as a minor in the eyes of the law. Eighteen year olds are eligible to enlist in the military, vote in national, state, and local elections, enter into contracts, and buy their own car. I believe adults should not be subject to the same driving restrictions presently applied to minors.

When I vetoed a similar bill in 2013, I believed that efforts would be better focused on teen driver training and education programs that improve transportation safety for provisional drivers. That is still my view today.

Sincerely,

Edmund G. Brown Jr.

**Governor's Veto Message:**

Governor's veto message: To the Members of the California State Assembly:

I am returning Assembly Bill 45 without my signature.

This bill establishes a new program under the Department of Housing and Community Development for the purpose of providing predevelopment grants and loans to developers for the creation of affordable rental housing for school district employees.

I recently signed Senate Bill 2 into law which provides an ongoing funding source for housing. In the first year, SB 2 directs fifty percent of the funding to be made available to local governments for planning purposes. In subsequent years, seventy percent of the funding is directly allocated to local governments so they can address their own unique housing needs and fifteen percent of the funding will be targeted towards workforce housing through the California Housing Financing Authority.

Rather than creating a new program at this time, I encourage the author to work with the local governments in his district and collaborate with the California Housing Financing Authority to maximize the funding in SB 2.

Sincerely,

Edmund G. Brown Jr.

Governor's veto message: To the Members of the California State Assembly:

I am returning Assembly Bill 17 without my signature.

This bill requires the Department of Transportation to create a competitive grant program for local transit agencies to provide free and reduced-fare transit passes for low-income students.

Many transit agencies, including the Los Angeles County Metropolitan Transportation Authority, already have a variety of reduced-fare transit programs for students. Before we create this new statewide program, I think we should have a fuller discussion on how local transit discount programs work and how any new ones should be paid for.

Sincerely,

Edmund G. Brown Jr.

**Governor's Veto Message:**

Governor's veto message: To the Members of the California State Assembly:

I am returning Assembly Bill 1393 without my signature.

This bill requires courts to impose a mandatory 30-day vehicle impoundment for a second or subsequent case of reckless driving or engaging in an illegal speed contest.

I vetoed a similar bill in 2015, because I believed that current law already allows judges

- who see and evaluate first-hand the facts of each case to impound cars for up to 30 days when circumstances warrant.

I continue to believe that there is no reason for this law except to supplant sound judicial discretion with robotic and abstract justice - something I don't support.

Sincerely,

Edmund G. Brown Jr.

I am returning Assembly Bill 696 without my signature.

This bill directs the Department of Transportation to use the revenues from surplus property sold in Monterey County towards local highway projects in the county, rather than transfer the proceeds to the General Fund.

In 2016, I vetoed AB 2730, a virtually identical bill. My reasons then were:

These revenues are used to pay existing debt service on transportation construction projects statewide, which is an important purpose. Maintaining this funding stream to the General Fund is even more necessary when the state's budget remains precariously balanced.

That is still my view.

**Governor's Veto Message:**

Governor's veto message: To the Members of the California State Assembly:

I am returning Assembly Bill 863 without my signature.

This bill encourages projects that receive funding from the Affordable Housing and Sustainable Communities Program to employ local entrepreneurs and workers from training programs.

The Affordable Housing and Sustainable Communities Program, funded by the Cap and Trade Program, already focuses on improving the economic conditions within disadvantaged communities. In fact, the Strategic Growth Council recently updated the program's guidelines to prioritize projects that focus on local entrepreneurs and workforce training programs.

I believe any additional refinements would be best addressed through the Strategic Growth Council's process.

Sincerely,

Edmund G. Brown Jr.

## Transportation Finance and Development

### **SB-1 (Beall) - Transportation funding.**

Increases several taxes and fees to raise roughly \$5.2 billion in new transportation revenues annually and makes adjustments for inflation. Further proposes the funding to be used towards deferred maintenance on the state highways and local streets and roads, improve the state's trade corridors, and transit.

### **AB-544 (Bloom) - Vehicles: high-occupancy vehicle lanes.**

Modifies the Clean Air Vehicle (CAV) Program, which enables certain low-emission vehicles to access carpool lanes with a single occupant, and creates a new program to take effect when the CAV program sunsets in 2019. Allows CAV (green and white) stickers issued prior to January 1, 2017, to expire on January 1, 2019. Allows owners or lessees of vehicles with CAV stickers issued between January 1, 2017, and January 1, 2019, to apply to DMV for a new sticker that shall be valid until January 1, 2022. Provides that stickers issued on or after January 1, 2019, will be valid until January 1 of the fourth year after the year of issuance. Prohibits DMV from issuing a CAV sticker to an applicant who has received a Clean Vehicle Rebate Project rebate, unless the applicant's income falls below specified income limits.
